#### INDEPENDENT AUDITORS' REPORT

State Committee for School District Audits Members of the Board of Education of Anchorage Independent School District

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Anchorage Independent School District as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements prescribed by the Kentucky State Committee for School District Audits in *Appendix I of the Independent Auditor's Contract – General Requirements, Appendix II of the Independent Auditor's Contract – State Audit Requirements, and Appendix III of the Independent Auditor's Contract – Electronic Submission. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.* 

State Committee for School District Audits Members of the Board of Education of Anchorage Independent School District

#### Auditor's Responsibility (continued)

An audit includes performing procedures to obtain audit evidence about the amounts and disclosur es in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whet her due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the ef fectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as eva luating the overall presentation of the financial statement s.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to ab ove present fairly, in all material respects, the respective financial position of the governmental activities, the business -type activities, each major fund and the aggregate remaining fund information of the Anchorage Independent School District as of June 30, 2016, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and budgetary comparison information on pages 8 through 11 and pages 48 through 52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an e ssential part of financial reporting f or placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures—to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management—about the methods of

State Committee for School District Audits Members of the Board of Education of Anchorage Independent School District

Other Matters (continued)

**Required Supplementary Information (continued)** 

preparing the information and comparing the information for consistency with management's respo nses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express any opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining nonmajor fund financial statements and additional information are presented for the purpose s of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements and additional information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to priepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and ceritain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and additional information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

State Committee for School District Audits Members of the Board of Education of Anchorage Independent School District

#### Report on Other Legal and Regulatory Requirements

In accordance with Government Auditing Standards, we have also issued our report dated October 12, 2016, on our consideration of the Anchorage Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control o ver financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and in considering Anchorage Independent School Distri ct's internal control over financial reporting and In addition, the results of our tests disclosed no instances of noncompliance of specific state statutes or regulations identified in Appendix II of the Independent Auditor's Contract - State Audit Requirements.

### ANCHORAGE INDEPENDENT SCHOOL DISTRICT ANCHORAGE, KENTUCKY MANAGEMENT'S DISCUSSION AND ANALYSIS (MD & A) YEAR ENDED JUNE 30, 2016

As management of the Anchorage Independent School District "the District", we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the audit.

#### FINANCIAL HIGHLIGHTS

- $\lambda$  The beginning cash balance for all funds of the District was \$2,688,388 and the ending balance was \$3,207,182, an increase of \$518,794.
- λ The General Fund had \$5,752,188 in revenue, which primarily consisted of property tax, motor vehicle, occupational license taxes and SEEK (State Funding). Excluding inter-fund transfer, there were \$5,195,226 in General Fund expenditures. This includes on-behalf payments.
- $\lambda$  The District's bonded debt decreased by \$204,120. The district will be debt free in FY 2018-2019 after making its final bond payment of \$10,719.
- λ The District remains committed to considering teacher salaries as an important part of the overall budget. The pay increase for FY 2015-2016 was 2% for all staff.
- $\lambda$  The District continues to be dedicated to maintaining its historic facility. This summer we painted the windows and dormers in the front of the school along with all handrails at the rear of the school, rekeyed the entire school, replaced the tile in the administration building due to water line break, replaced a roof section over room 214and replaced several HVAC units.
- $\lambda$  Our generous APTA started displaying bricks in the sidewalk at the front of the school as an athletic field fundraising project.
- λ The District made a concerted effort to accumulate funds during FY16 in order to undertake an extensive window replacement project scheduled for summer 2017, which contributed to the ending balance increase. The District additionally allowed for over \$39,000 in technology and textbook funds to be carried into FY17 in order to allow additional time for the middle school team and school administration to consider how best to utilize the funds within the middle school program program.

# ANCHORAGE INDEPENDENT SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued) FOR THE FISCAL YEAR ENDED JUNE 30, 201 6 UNAUDITED

The District-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (government activities). The governmental activities of the District include instruction, support service s, operation and maintenance of plant, and operation of non -instructional services. Taxes and intergovernmental revenues also support fixed assets and related debt.

The District -wide financial statements can be found on pages 1 2 and 13.

Fund financial s tatements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. This is a state mandated uniform system and chart of accounts for all Kentucky public school districts utilizing the MUNIS administrative software. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental, proprietary and fiduciary funds. Fiduciary funds are trust funds established by benefactors to aid in student education, welfare and teacher support. The only proprietary funds are our day care program and food service operations. All other activities of the district are included in the governmental funds.

The basic governmental fund financial statements can be found on pages 1 4 and 16.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government -wide and fund financial statements.

The notes to the financial statements can be found on pages 2 3 through 46.

#### **DISTRICT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a gover nment's financial position. In the case of the District, assets exceeded liabilities by \$6,205,712 as of June 30, 201 6.

A portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, technology and general equipment), less any related debt used to acquire those assets that is still outstanding. The District used these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from oth er sources, since the capital assets themselves cannot be used to liquidate these liabilities.

# ANCHORAGE INDEPENDENT SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued) FOR THE FISCAL YEAR ENDED JUNE 30, 201 6 UNAUDITED

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition of capital assets, and the depreciation of capital assets.

	For the year ended June 30				
	<u>2016</u>	<u>2015</u>			
Current Assets	\$ 3,362,657	\$ 2,833,177

#### **Comments on Budget Comparisons**

- $\lambda$  The District's total General Fund revenues for the fiscal year ended June 30, 2016, net of onbehalf payments were \$5,752,188.
- $\lambda$  General fund budget compared to actual revenue (net of on -behalf payments) varied from line item to line item with the ending actual balance being \$70,108 more than budgeted.
- $\lambda$  General fund budget expenditur es to actual expenditures (net of on -behalf payments) varied from line item to line item with the actual balance being \$2,996,395 less than budgeted.
- $\lambda$   $\;$  Revenues exceeded e xpenditures  $\;$  with the actual balance being § 554,639 for a favorable result.

The following table presents a summary of General Fund revenue and expense.

	For the year ended June 30					
	<u>2016</u>	<u> 2015</u>				
Revenues:						
Local revenue sources	\$ 5,107,836	\$ 4,966,260

Revenue in Excess of E xpenditures	\$ <u>554,639</u>	\$ <u>402.315</u>

#### **BUDGETARY IMPLICATIONS**

In Kentucky the public school fiscal year is July 1 — June 30; other programs, i.e. some federal programs operate on a different fiscal calendar, but are reflected in the district overall bu dget. By law the budget must have a minimum 2% contingency. The district adopted a budget with \$502,831 in contingency. The beginning cash balance for the next fiscal year is \$3,194,794.

Many of the program grants are continuation programs that we hat we become reliant on to service our students. However, decreases in grants and state funding along with the added burden of health insurance costs and matching retirement for employees have significantly reduced the dollars available for teacher salaries and other program support.

Questions regarding this report should be directed to Kelley Ransdell , Superintendent, Kelley.Ransdell@Anchorage.kyschools.us or to Jonathan Travis, Finance Officer, Jon.Travis@Anchorage .kyschools.us or by phone at 502-245-8927 or by mail at 11400 Ridge Road , Anchorage , KY 40223.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

June 30, 2016

Net change in total fund balances per fund financial statements		\$ 554,639
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported as expenditures in this fund financial statement because they use current financial resources, but they are presented as assets in the statement of activities and depreciated over their estimated economic lives. The difference is the amount by which capital outlays exceeds depreciation expense for the year.  Capital outlay	12,228	
Depreciation expense  Bond amortization expense	(291,550) (3,328)	(282,650)
Bond and capital lease payments are recognized as expenditures of current financial resources in the fund financial statement but are reductions of liabilities in the statement of net position.  Principal on bond payments		204,120
Certain expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when they are incurred.		12,599
The difference between actuarial pension contributions to CERS and actual contributions made are recorded as adjustments in the statement of activities.		(144,198)
Certain increases (decreases) in noncash activities are reported as expenditures in the statement of activites because they may require the use of current financial resources		
Accrued compensated abscences		 78,785
Change in net position of governmental activities		\$ 423,295

**Notes to Financial Statements** 

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNT ING POLICIES

The basic financial statements of Anchorage Independent School District have been p repared in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

#### A. Reporting Entity

The Anchorage Independent School District (Board), a five member group, is the level of government which has oversight responsibilities over all activities related to public element ary and secondary school education within the jurisdiction of the Anchorage Independent School District (District). The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools in the district. The District receives funding from local, state and federal government sources and must comply with the commitment requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined in Section 2100 of the Codification of Governmental Accounting and Financial Reporting Standards.

#### **B.** Related Organizations

The Board, for financial purposes, includes all of the funds and account groups relevant to the operation of the Anchorage Independent School District. The financial statements presented herein do not include funds of groups and organizations, which although associated with the school system, have not originated within the Board itself such as Band Boosters, Parent -Teacher Associations, etc.

The financial statements of the Board include those of separately administered organizations that are controlled by or dependent on the Board. Control or dependence is determined on the basis of budget adoption, funding and appointment of the respective governing board.

Based on the foregoing criteria, the financial statements of the following organization are included in the accompanying financial statements:

Notes to Financial Statements (Continued)

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **B.** Related Organizations (Continued)

Anchorage Independent School District Finance Corporation - The Anchorage, Kentucky, Board of Education resolved to authorize the establishment of the Anchorage Independent School District Finance Corporation (a non -profit, non-stock, public and charitable corporation organized under the School Bond Act and KRS 273 and KRS Section 58.180) as an agency of the Board for financing the costs of school District also comprise the Corporation's Board of Directors.

#### C. Basis of Presentation, Basis of Accounting

#### i. Basis of Presentation

Government -wide Statements: The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double -counting of internal activities. Governmental activities gen erally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues in clude (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

**Notes to Financial Statem ents (Continued)** 

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### C. Basis of Presentation, Basis of Accounting (Continued)

#### i. Basis of Presentation (Continued)

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The District reports the following major governmental funds:

The General Fund is the primary operating fund of the District. It accounts for financial resources used for general types of operations. This is a budgeted fund, and any unrestricted fund balances are considered as resources available for use.

The Special Revenue Fund accounts for proceeds of specific revenue sources (other then expendable trusts or major capital projects) that are legally restricted to disbursements for specified purposes. It includes federal financial programs where unused balances are returned to the grantor at the close of specified project periods as well as the state grant programs. Project accounting is employe d to maintain integrity for the various sources of funds.

The Construction Fund includ ing Capital Projects Funds accounts for proceeds from sales of bonds and other revenues to be used for authorized construction.

The District reports the following major business -type funds:

The School Food Service Fund is used to account for school food service activities, including the National School Lunch Program, which is conducted in cooperation with the U. S. Department of Agriculture ("USDA"). In-kind contributions of commodities from the USDA have been recorded in the Statement of Activities – Proprietary Fund in the amount of \$9,720.

**Notes to Financial Statements** (Continued)

#### NOTE 1. SUMMARY OF SIGNIFIC ANT ACCOUNTING POLICIES (Continued)

- C. Basis of Presentation, Basis of Accounting (Continued)
  - i. Basis of Presentation (Continued)

In addition, the District reports the following fund types:

Trust and Agency Funds: These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Private-Purpose Trust Funds: These funds are used to report trust arrangements under which the principal and income benefit individuals, private organizations or other governments.

#### ii. Measurement Focus, Basis of Accounting

**Government - wide and Proprietary Fund Financial Statements:** These financial statements are reported using the economic resources measurement focus. The government -wide and proprietary fund financial statements are repor ted using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives ( or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxe s are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Notes to Financial Statements (Continued)

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- C. Basis of Presentation, Basis of Accounting (Continued)
  - ii. Measurement Focus, Basis of Accounting (Continued)

**Governmental Fund Financial Statements:** Governmental funds are reported using the current financial resources measurement focus and Under this method, revenues the modified accrual basis of accounting. are recognized when measurable and available. The District does not consider revenues collected after its year -end to be available i n the Revenues from local sources consist primarily of current period. property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible -to-accrual concept. Miscellaneous revenues are recorded as revenue whe n received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental fun ds. Proceeds of general long -term debt and acquisitions under capital leases are reported as other financing sources.

When the district incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements.

Notes to Financial Statements (Continued)

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Encumbrance Accounting

Purchase orders or contracts document encumbrances for goods or purchased services. Under Kentucky law, appropriations lapse at June 30, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subseq uent year's budget.

#### E. Financial Statement Amounts

#### i. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Board considers demand deposits, money market funds, and other investments with an original maturity of 90 days or less , to be cash equivalents.

#### ii. Inventories

Supplies and materials are charged to expenditures when purchased with the exception of the Proprietary Funds, which records inventory using the accrual basis of accounting.

#### iii. Property Taxes

Property taxes are levied each September on the assessed value listed as of the prior January 1 for all real and business personal property. Taxes are due on receipt of the tax bill; however, the actual date is based on a period ending 30 days after the tax bill mailing. Property taxes collected are recorded as revenues in the fiscal year for which they were levied. All taxes collected are initially deposited into the General Fund and then transferred to the appropriate fund.

The property tax rates assessed for the year—ended December 31, 2015, to finance the General Fund operations w—ere \$.982 per \$100 valuation for real property, \$.982 per valuation for personal property and \$1.10 per \$100 valuation for motor vehicles. The assessed value upon which the levy for the 20 15 fiscal year was based was \$425,606,574.

Notes to Financial Statements (Continued)

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### E. Financial Statements Amounts (Continued)

#### iv. Capital Assets

The District's property, plant and equipment with useful lives of more than one year are stated at historical cost and comprehensively reported in the government -wide financial statements. Donated assets are stated at fair value on the date donated. The District maintains a capitalization threshold of five thousand dollars (\$5,000). The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

Estimated useful lives, in y ears, for depreciable assets are as follows:

Land Improvements	20
Buildings and improvements	25 - 50
Technology Equipment	5
General Equipment	10 - 20

The District does not possess any infrastructure.

#### v. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, designated fund balances, and disclosure of contingent assets and liabilities at the date of the general purpose financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements (Continued)

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### E. Financial Statements Amounts (Continued)

#### vi. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental and business -type activities columns of the statements of net assets, except for the residual amounts due between governmental and business -type activities, which are presented as internal balances.

#### F. Budgetary Process

Budgetary Basis of Accounting: The District's budgetary process accounts for certain transactions on a basis other than GAAP. The major differences between the budgetary basis and the GAAP basis are:

Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP),

Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

Once the budget is approved, it can be amended. Amendments are presented to the Board at their regular meetings. Amendments are reflected in the official minutes of the Board, and are not made after fiscal year-end as directed by law.

Each budget is prepared and controlled by the budget coordinator at the revenue and expenditure function/object level. All budget appropriations lapse at ye ar-end.

Notes to Financial Statements (Continued)

#### NOTE 2. COMPLIANCE AND ACCOUNTABILITY

#### A. Deposits and Investments

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day -to-day basis during the period of contract. The pledge of approved sec urities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

#### **Cash Deposits:**

At June 30, 2016, the carrying am ount of the District's deposits (cash, certificates of deposit, and interest -bearing savings accounts included in temporary investments) was \$3,308,223 and the bank balance was \$3,913,716. The District's cash deposits at June 30, 2016, and during the year ended June 30, 2016, were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank.

The cash deposits held at financial institutions can be categorized according to three levels of risk. These three levels of risk are as follows:

- Category 1 Cash and cash equivalents that are insured or registered or securities held by the school district or by its agent in the school district's name.
- Category 2 Cash and cash equivalents and investments that are uninsured or unregistered, with securities held by the counterpart's trust department or agent in the school district's name.
- Category 3 Cash and cash equivalents and investments that are uninsured and unregistered with securities held by the counterpar ty or its trust department or agent but not in the school district's name.

Notes to Financial Statements (Continued)

#### NOTE 2. COMPLIANCE AND ACCOUNTABILITY (Continued)

#### B. Deposits and Investm ents (Continued)

#### **Cash Deposits (Continued)**:

The school district's deposits and investments at Unne 30, 201 6, are categorized as follows .

	Carrying Amor	unt/ Bank		Categor	<u>y</u>
	Market Value	<u>Balance</u>	1	2	3
<b>Demand Deposits:</b>					
General checking	\$ 3,308,223	\$ 3,913,716	\$ 250,000	\$ -0-	\$ 3,058,223

In order to facilitate the recording of cash transactions and to maximize earnings, the District has combined the cash resources of certain of its funds and maintains ac countability for such funds' equity in the pooled cash. The District is allowed to invest in the following types of investments: term certificates of deposit, repurchase agreements, money market deposit accounts, government pools, and U. S. Treasur y Obligations. The District records nonparticipating interest -earning investment contracts at cost. other securities are recorded at fair value. It is the intention of the investment pool to maximize interest income, and securities are selected according to their risk, marketability, and diversification. **Income earned or** losses arising from the investment of pooled cash balances are allocated to individual funds based on their proportional equity in investments purchased. For purposes of the statem ents of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Notes to Financial Statements (Continued)

NOTE 3. CAPITAL ASSETS

Capital asset balances and activity for the year ended June 30, 2016 were as follows:

#### ANCHORAGE INDEPENDENT SCHOOL DISTRICT Notes to Financial Statements (Continued)

#### NOTE 4. BONDED DEBT AND LEASE OBLIGATIONS

The amount shown in the accompanying financial statements as lease obligations repr esents the District's future obligations to make lease payments relating to the bonds issued by the Anchorage Independent School District Finance Corporation (Corporation) aggregating \$1,581,239.

The original amount of the issue, issue dates and the inter est rates of the bond issues are summarized below:

ISSUE OF	ORIGINAL AMOUNT	INTEREST RATES
2008 Refunding	\$ 1,335,000	2.2 % to 3.25%
Series 2009 KISTA	\$ 246,239	1.0% to 3.0 %

The District, through the General Fund, (including the SEEK Capital Outlay Fund and Building Fund ) is obligated to make lease payments in amounts sufficient to satisfy debt service requirements. The District has an option to purchase the property under lease at any time by retiring the bonds then outstanding.

On December 1, 2009, the District refinanced \$241,000 of KISTA bonds. The new bond issue (KISTA Series 2009R) is for a total of \$246,239. The difference in the amount refinanced and the amount of the bond issue is the cost of issuing the bonds.

The District has entered into "participation agreements" with the Kentucky School Facility Construction Commission. The Commission was created by the Kentucky Legislature for the purpose of assisting local school districts in meeting school construction needs. The table below sets forth the amount to be paid by the District and the Commission for each year until maturity of all bond issues.

The bonds may be called prior to maturity and redemption premiums are specified in each issue. Assuming no bonds are called prior to scheduled maturity, the minimum obligations of the District, including amounts to be paid by the Commission, at June 30, 201 6 for debt service (principal and interest) are as follows:

**Notes to Financial Statements (Continued)** 

#### NOTE 4. BONDED DEBT AND LEASE OBLIGATIONS (Continued)

		RAGE INDEPENDENT		SCHOOL FACILITIES CONSTRUCTION COMMISSION

#### NOTE 5. ACCUMULATED UNPAID SICK LEAVE BENEFITS

Upon retirement from the school system, an employee will receive from the District an amount equal to 30% of the value of accumulated sick leave.

Sick leave benefits are accrued as a liability using the vesting method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in te rmination payments. The liability is based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government -wide financial statements.

For governmental fund financial stateme nts the current portion of unpaid accrued sick leave is the amount expected to be paid using expendable available resources. These amounts are recorded in the amount "accumulated sick leave payable" in the general fund. The noncurrent portion of the liab ility is not reported.

**Notes to Financial Statements (Continued)** 

#### NOTE 6. RETIREMENT PLANS

The District's employees are provided with two pension plan s, based on each position's college degree requirement. The County Employees Retirement System covers employees whose position does not require a college degree or teaching certification. The Kentucky Teachers Retirement System covers positions requiring teaching certification or otherwise requiring a college degree.

General info rmation about the County Employees Retirement System Non -Hazardous ("CERS")

Plan description - Employees whose positions do not require a degree beyond a high school diploma are covered by the CERS, a cost -sharing multiple -employer defined benefit pension plan administered by the Kentucky Retirement System, an agency of the Commonwealth of Kentucky. Under the provisions of Kentucky Revised Statute ("KRS") Section 61.645, the Board of Trustees of the Kentucky Retirement System administers CERS and has the authority to establish and amend benefit provisions. The Kentucky Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for CERS. That report may be obtained from <a href="http://kyret.ky.gov/">http://kyret.ky.gov/</a>.

Benefits provided - CERS provides retirement, health insurance, death and disability benefits to Plan employees and beneficiaries. Employees are vested in the plan after five years' service. For retirem ent purposes, employees are grouped into three tiers, based on hire date:

Tier 1	Participation date	Before September 1, 2008
	Unreduced retirement	27 years service or 65 years old
	Reduced retirement	At least 5 years service and 55 years old
		At least 25 years service and any age
Tier 2	Participation date	September 1, 2008 – December 31, 2013
	Unreduced retirement	At least 5 years service and 65 years old
		Or age 57+ and sum of service years plus age equal 87
	Reduced Retirement	At least 10 years service and 60 years old
Tier 3	Participation date	After December 31, 2013
	Unreduced retirement	At least 5 years service and 65 years old
		Or age 57+ and sum of service years plus age equals 87
	Reduced retirement	Not available

**Notes to Financial Statements (Continued)** 

#### NOTE 6. RETIREMENT PLANS (continued)

Cost of living adjustments are prov ided at the discretion of the General Assembly. Retirement is based on a factor of the number of years' service and hire date multiplied by the average of the highest five years' earnings. Reduced benefits are based on factors of both of these components . Participation employees become eligible to receive the health insurance benefit after at least 180 month s of service. Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are \$5,000 in lump sum. Five years' service is required for death benefits prior to retirement and the employee must have suffered a duty -related death. The decedent's beneficiary will receive the higher of the normal death benefit and \$10,000 plus 25% of the decedent's monthly final rate of pay and any dependent child will receive 10% of the decedent's monthly final rate of pay up to 40% for all dependent children. Five years' service is required for nonservice -related disability benefits.

Contributions - Required contributions by the employee are based on the tier:

	Required contribution
Tier 1	5%
Tier 2	5% + 1% for insurance
Tier 3	5% + 1% for insurance

General Information about the Teachers' Retirement System of the State of Kentucky ("KTRS")

Plan description - Teaching certified employees of the District and other employees whose positions require at least a college degree are provided pensions through the Teachers' Retirement System of the State of Kentucky (KTRS) - a cost-sharing multiple-employer defined benefit pension plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the Commonwealth. KTRS was created by the 1938 Gene ral Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the KRS. KTRS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. KTRS issues a publi cly available financial report that can be obtained at http://www.ktrs.ky.gov/05\_publications/index.htm.

Benefits provided - For employees who have established an account in a retirement system administered by the Commonwealth prior to July 1, 2008, employees become vested when they complete five (5) years of credited service. To qualify for monthly retirement benefits, payable for life, employees must either:

- 1. Attain age fifty -five (55) and complete five (5) years of Kentucky service, or
- 2. Complete 27 years of Kentucky service.

**Notes to Financial Statements (Continued)** 

#### **NOTE 6. RETIREMENT PLANS (Continued)**

Employees that retire before age 60 with less than 27 years of service receive reduced retirement benefits. Non-university employees with an account established prior to July 1, 2002 receive monthly payments equal to two percent (service prior to July 1, 1983) and two and one -half percent (service after July 1, 1983) of their final average salaries fo reach year of credited service. New employees (including second retirement accounts) after July 1, 2002 will receive monthly benefits equal to two percent of their final average salary for each year of service if, upon retirement, their total service is less ten years. New employees after July 1, 2002 who retire with ten or more years of total service will receive monthly benefits equal to two and a half percent of their final average salary for each year of service, including the first ten years. In addition, employees who retire July 1, 2004 and later with more than 30 years of service will have their multiplier increased for all years over 30 from two and a half percent to three percent to be used in their benefit calculation. Effective July 1, 2008, t he System has been amended to change the benefit structure for employees hired on or after that date.

Final average salary is defined as the member's five highest annual salaries for those with less than 27 years of service. Employees at least age 55 with 27 or more years of service may use their 3 highest annual salaries to compute the final average salary. KTRS also provides disability benefits for vested employees at the rate of sixty percent of the final average salary. A life insurance benefit, pay able upon the death of a member, is \$2,000 for active contributing employees and \$5,000 for retired or disabled employees.

Cost of living increases are 1.5% annually. Additional ad hoc increases and any other benefit amendments must be authorized by the General Assembly.

Contributions - Contribution rates are established by Kentucky Revised Statutes (KRS). Non university employees are required to contribute 12.105% of their salaries to the System. University employees are required to contribute 9.895% of their salaries. KRS 161.580 allows each university to reduce the contribution of its employees by 2.215%; therefore, university employees contribute 7.68% of their salary to KTRS.

The Commonwealth of Kentucky, as a non -employer contributing entity, pays matching contributions at the rat e of 13.105% of salaries for local school district and regional cooperative employees hired before July 1, 2008 and 14.105% for those hired after July 1, 2008. For local school district and regional cooperative employ ees whose salaries are federally funded, the employer contributes 15.355% of salaries. If an employee leaves covered employment before accumulating 5 years of credited service, accumulated employee pension contributions plus interest are refunded to the employee upon the member's request.

**Notes to Financial Statements (Continued)** 

#### NOTE 6. RETIREMENT PLANS (Continued)

Medical Insurance Plan

Plan description - In addition to the pension benefits described above, KRS 161.675 requires KTRS to provide post -employment healthcare benefits to eligible employees and dependents. The KTRS Medical Insurance Fund is a cost -sharing multiple employer defined benefit plan. Changes made to the medical plan may be made by the K TRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

To be eligible for medical benefits, the member must have retired either for service or disability. The KTRS Medical Insurance Fund offers coverage to employees under the age of 65 through the Kentucky Employees Health Plan administered by the Kentucky Department of Employee Insurance. Once retired employees and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the KTRS Medicare Eligible Health Plan.

Funding Policy - In order to fund the post -retirement healthcare benefit, 6% of the gross annual payroll of employees before July 1, 2008 is contributed. Three percent is paid by member contributions and .75% from the Commonwealth appropriation and 2.25% from the employer. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 201 6, the District reported a lia bility for its proportionate share of the net pension liability for CERS. The District did not report a liability for the District's proportion ate share of the net pension liability for KTRS because the Commonwealth of Kentucky provides the pension support directly to KTRS on behalf of the District. The amount recognized by the District as its proportionate share of the net pension liability, the related Commonwealth support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the CERS net pension liability \$ 1,393,503

Commonwealth's proportionate share of the KTRS net pension liability associated with the District 26,218,814 \$ 27,612,317

The net pension liability for each plan was measured as of June 30, 2015, and the total pension liability used to calculate the net position liability was determined by an actuarial valuation as of that date.

**Notes to Financial Statements (Continued)** 

#### NOTE 6. RETIREMENT PLANS (Continued)

The Board's proportion of the net pension liability for CERS was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary. At June 30, 2015, the District's proportion was 4.0979 percent.

For the year ended June 30, 201 6, the Board recognized pension expense of \$ 130,775 related to CERS and \$ 1,488,542 related to KTRS. The Board also recognized revenue of \$ 1,488,542 for KTRS support provided by the Commonwealth.

At June 30, 201 6, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences bet ween expected and actual		
experience	\$ 11,581	\$ -0-
Changes of assumptions	140,520	- 0 -
Net difference between projected and		
actual earnings on pension plan investments	14,492	- 0 -
Changes in proportion and differences between		
Board contributions and proportionate share		
of contributions	- 0 -	65,274
Board contributions subsequent to the		
Measurement date	<u> </u>	- 0 -
	<u>\$ 164,592</u>	<u>\$ 65,274</u>

The \$164,592 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 201 7. Other amounts reported as deferred inflows related to pension s will be recognized in pension expense as follows:

Year ende	<u>ed June 30                                    </u>
2017	13,054
2018	13,055
2019	13,055
2020	13,055
2021	13,055

**Notes to Financial Statements (Continued)** 

#### NOTE 6. RETIREMENT PLANS (Continued)

Actuarial assumptions - The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	CERS	KTRS
Inflation	3 .25%	3.50%
Projected salary	4.00%	4.0-8.2%
Investment rate of return		
net of investment expense		
and inflation	7.50%	7.50%

For CERS, Mortality rates for the period after service retirement are according to the 1983 Group Annuity Mortality Table for all retired employees and beneficiaries as of June 30, 2006 and the 1994 Group Annuity Mortality Table for all other employees. The Group Annuity Mortality Table set forward five years is used for the period after disability retirement.

For KTRS, Mortality rates were based on the RP -2000 Combined Mortal ity Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with a setback of one year for females. The last experience study was performed in 2011 and the next experience study is scheduled to be conducted in 2016.

For CERS, the long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. The most recent analysis, performed for the period covering fiscal years 2005 through 2008, is outlined in a report dated August 25, Several factors are considered in evaluating the long -term rate of return assumption including long -term historical data, estimates inherent in current market data, and a log normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. market assumptions developed by the investment consultant are intended for use over a year horizon and may not be useful in setting the long -term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long term assumption and is not expected to change absent a significant change in allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

**Notes to Financial Statements (Continued)** 

#### NOTE 6. RETIREMENT PLANS (Continued)

For KTRS, the long -term expected rate of return on pension investments was determined using a log -normal distribution analysis in which best -estimate ranges of expected future real rates of return (expected returns, net of pension plan investm ent expense and inflation) are developed for each major asset class. These ranges are combined to produce the long -term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by KTRS's investment consultant, are summarized in the following table:

Asset Class	Target Allocation	Long t erm expected Real Rate of Return
U.S. Equities	45.0%	6.4%
Non U.S. Equities	17.0%	6.5%
Fixed Income	24.0%	1.6%
High Yield Bonds	4.0%	3.1%
Real Estate	4.0%	<b>5.8</b> %
Alternatives	4.0%	6.8%
Cash	2.0%	1.5%

Discount rate - For CERS, the discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan employees and employers will be made a t statutory contribution rates. Projected inflows from investment earnings were calculated using the long -term assumed investment return of 7.75%. The long term investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

For KTRS, the discount rate used to measure the total pension liability was 4.88%. The projection flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the employer contributions will be made at statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit of current plan employees until the 203 9 plan year. Therefore, the long -term expected rate of return on pension plan investments was applied to all periods of projected benefit payments through 2039 and a municipal bond index rate of 3.82% was applied to all periods of projected benefit payments after 2039. The Single Equivalent Interest Rate (SEIR) that discounts the entire projected benefit stream to the same amount as the sum of the present values of the two separate benefit payments streams was used to determine the total pension liability.

**Notes to Financial Statements (Continued)** 

#### **NOTE 6. RETIREMENT PLANS (Continued)**

Sensitivity of CERS and KTRS proportionate shares of net pension liability to changes in the discount rate - The following table pres ents the net pension liability of the District, calculated using the discount rates selected by each pension system, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 -percentage point lower or 1-percentage -point higher than the current rate (I calculated the amounts in this schedule:

	1%Decrease	<b>Current Discount Rate</b>	1% increase
CERS Board's proportionate share of net pension	<b>6.75</b> %	7.75%	8.75%
liability	\$1,158,387	\$1,393,503	\$1,501,613
KTRS Board's proportionate	<b>3.98</b> %	4.88%	5.88%
share of net pension liability	\$ -0-	\$ - <b>0</b> -	\$ -0-

#### NOTE 7. COMMITMENTS AND CONTINGENCIES

The District receives funding from Federal, State and Local government agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if based on the grantor's review the funds are considered not to have been used for the intended purpose, the grantors may request a refund of monies advanced, or refuse to reimburse the District for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantors' satisfaction that the funds provided are being spent as intended and the grantor's intent to continue their programs.

**Notes to Financial Statements (Continued)** 

#### NOTE 8. INSURANCE AND RELATED ACTIVITIES

The District is exposed to various forms of loss of assets associated with the risks of fire, personal liability, theft, vehicula—r accidents, errors and omissions, fiduciary responsibilities, etc.—Each of these risk areas is covered through the purchase of commercial insurance.—The District has purchased certain policies which are retrospectively rated which included Worker's comp—ensation insurance.

#### NOTE 9. INTERFUND TRANSFERS

Interfund transfer activity for the year ended June 30, 201 6, is as follows:

<u>TYPE</u>	FROM FUND	TO FUND	<u>PURPOSE</u>	<u>AMOUNT</u>
Operating	Capital Outlay	Debt Service	Bond Payment	\$ 34,858
Operating	Building	Debt Service	Bond Payment	\$188,033
Operating	General Fund	Food Service	Cash Deficit	\$ 974

#### NOTE 10. DEFICIT OPERATING / F UND BALANCES

Funds with a current year deficit of revenue over expenditures are:

Fund 51	\$ 754
Fund 52	\$ 992

#### NOTE 11. COBRA

Under COBRA, employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the school district at risk for a substantial loss (contingency).

Notes to Fin ancial Statements (Continued)

#### NOTE 12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to To obtain in surance for workers' employees; and natural disasters. compensation, errors and omissions, and general liability coverage, the District participates in the Kentucky School Boards Insurance Trust Liability Insurance Fund. These public entity risk pools operate as common risk management and insurance programs for all school districts and other tax supported educational agencies of Kentucky who are members of the Kentucky School Boards Association. The district pays an annual premium to each fund for coverage. Contributions to the Workers' Compensation Fund are based on premium rates established by such fund in conjunction with the excess insurance carrier. subject to claims experienced modifications and a group discount amount. Dividends may be declared, but are not payable until twenty -four (24) months after the expiration of the self -insurance term. The Liability Insurance fund pays insurance premiums of the participating members established insurance carrier. The Trust can terminate coverage if it is unable to obtain acceptable excess general liability coverage and for any reason by giving ninety (90) days notice. In the event the Trust terminated coverage, any amount remaining in the Fund (after payment of operational and administrative costs and claims for which coverage was provided) would be returned to the member on a pro rata basis.

#### NOTE 13. ON-BEHALF PAYMENTS

For the year ended June 30, 2016, total payments of \$ 1,188,679 were made for life insurance, health insurance, KTRS matching and administrative fees by the Commonwealth of Kentucky on behalf of the District. These payments were recognized as on -behalf payments and recorded in the appropriate revenue and expense accounts on the statement of activities. On behalf payments are not budgeted items.

**Notes to Financial Statements (Continued)** 

#### NOTE 13. ON-BEHALF PAYMENTS (continued)

On-behalf payments for the year ended June 30, 201 6 consisted of the following:

Health insurance	\$ 584,785
KTRS	542,227
HRA	22,400
Technology	32,134
Administrative fee	6,287
Life insurance	846

Total <u>\$ 1,188,679</u>

The breakdown of on -behalf payments by fund is as follows:

**General Fund** \$ 1,163,456

School Food Service \$ 25,223

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### Independent Auditor's Report

State Committee for School District Audits Members of the Board of Education of Anchorage Independent School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States and the audit requirements prescribed by the Kentucky State Committee for School District Audits in Appendix I to the Independent Auditor's Contract – General Requirements and Appendix II to the Independent Auditor's Contract – State Audit Requirements, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Anchorage Independent School District as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 12, 2016.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose or expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Anchorage Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Anchorage Independent School District's internal control.

State Committee for School Districts Members of the Board of Education of Anchorage Independent School District

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance .

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not i dentified. Given these limitation s, during our audit we did w e did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Anchorage Independent School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do n ot express such an opinion. The result of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

In addition, the results of our tests disclosed no material instances of n oncompliance of specific state statutes or regulations identified in Appendix II of the Independent Auditor's Contract – State Requirements.

State Committee for School District Audits Members of the Board of Education of Anchorage Independent School District

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

State Committee for School District Audits Members of the Board of Education of Anchorage Independent School District

In planning and performing our audit of the financial statements of Anchorage Independent School District for the year ended June 30, 2016, we considered the District's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

The memorandum that accompanies this letter summarizes our comments and suggestions regarding internal controls and operating efficiency. A separate report dated October 12, 2016 contains our report on significant deficiencies and material weaknesses in the District's internal control structure. This letter does not affect our report dated October 12, 2016 on the financial statements of the Anchorage Independent School District.

This report is intended solely for the information and use of the Board and management and is not intended to be and should not be used by anyone other than these specified parties.

We appreciate the opportunity to be of service to the Anchorage Independent School District.

Amick & Company

Louisville, Kentucky October 12, 2016

Management Letter Comments For the Year Ended June 30, 201 6

#### **COMMENT 2016-1**

#### REDBOOK REQUIREMENTS

Condition

The school treasurer is not in compliance with the Redbook General Guidelines for Expenditures .

#### Criteria

The Guidelines state that the school treasurer shall file all documents for a disbursement together by month, in check numerical order.

#### Recommendation

We recommend that school treasurer review the Redbook Guidelines for expenditures to ensure she is in compliance.

#### Management's Response

The school has a new treasurer this year. She received Redbook training on school activity fund accounting procedures on September 2, 2016 and has experience in Kentucky School accounting. The documents for FY17 for a disbursement are being filed together by month, in check numerical order.

#### **COMMENT 201 6-2**

#### **CURRENT YEAR DEFICIT**

#### Condition

The District's School Food Service program has experienced — a deficit for the current year. The fund is in danger of going into a negati—ve net position.

#### Criteria

The School Food Service is a proprietary fund and as such should be self supporting.

#### Recommendation

We recommend the District review all the factors involved including food costs, menu changes and decrease in student particip—ation in order to determine the proper course of action.

#### Management's Response

Management will review the operations of the School Food Service no later than October 31, 2016 and will hold quarterly meetings with the superintendent, finance officer and school food service coordinator to monitor progress, making adjustments considered appropriate to avoid entering into a negative net position.
